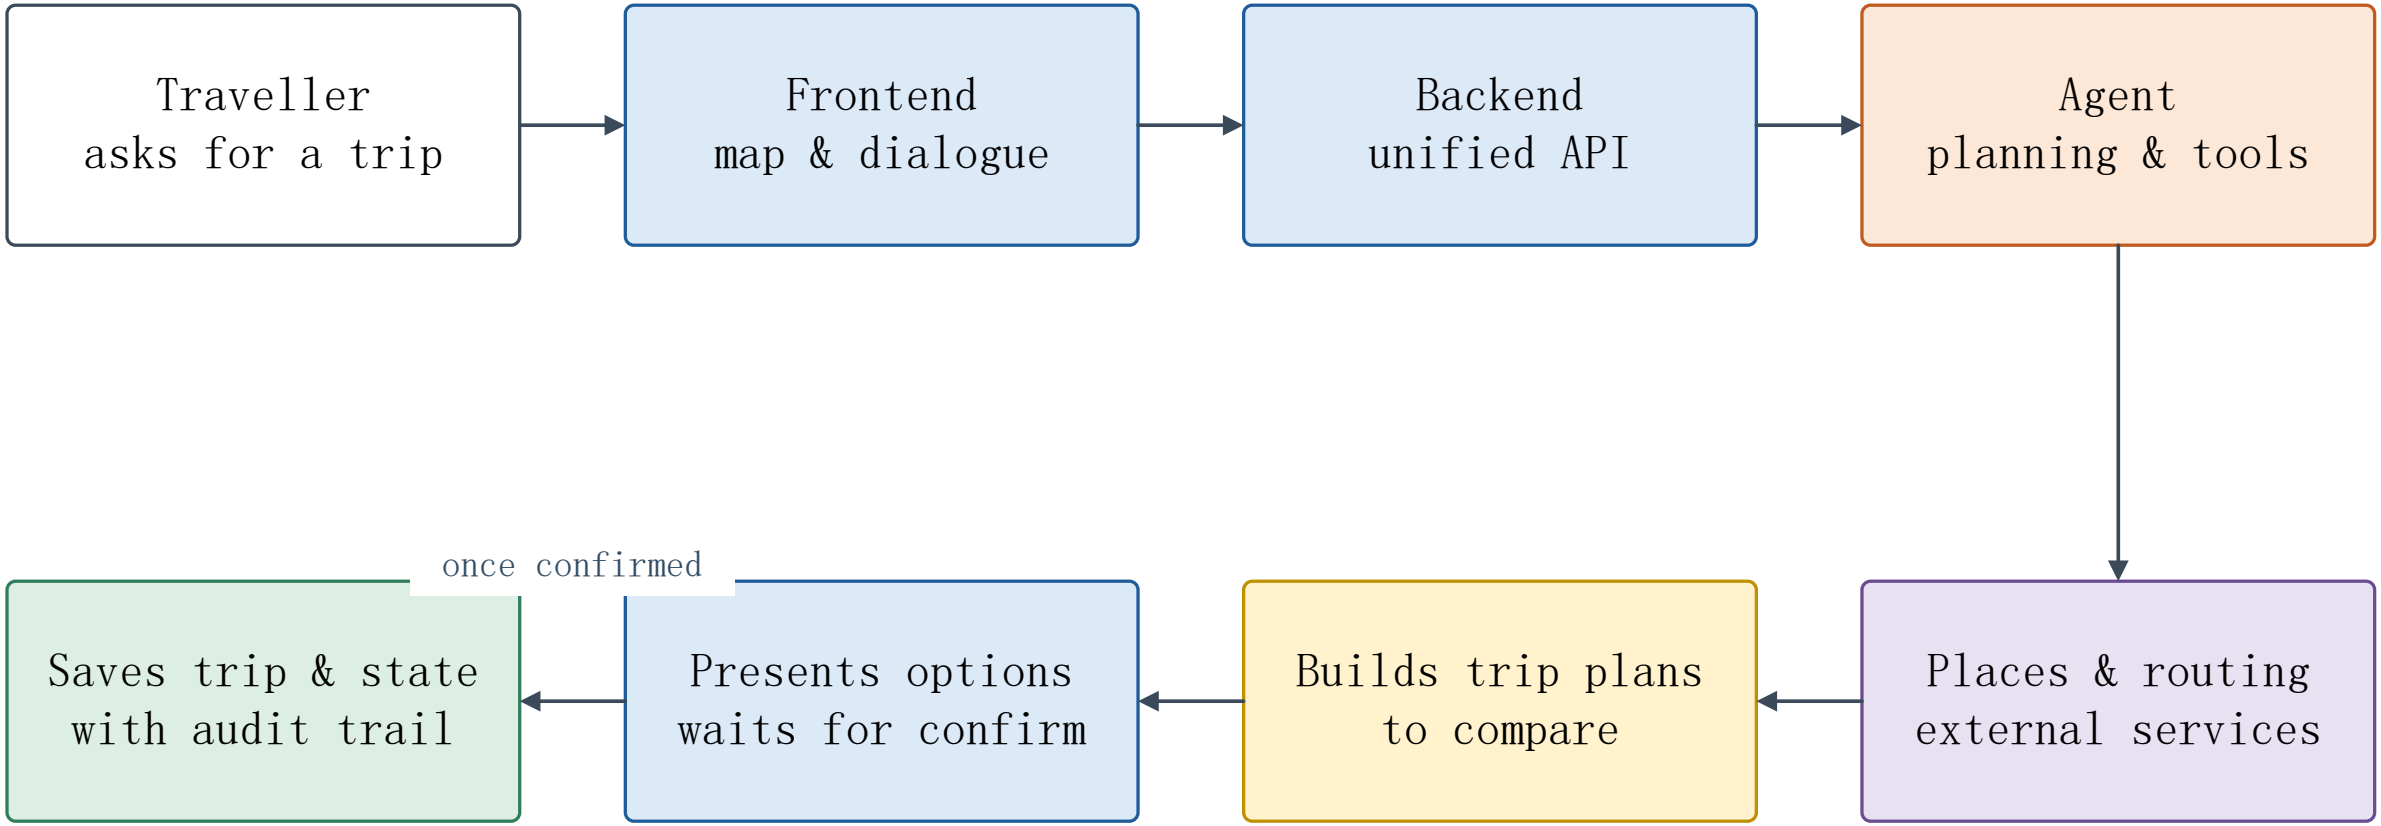
CityNexus | System Overview

Classroom demo · from CityNexus verified architecture
generated 2026-10-29 08:06

The Agent only proposes - the user confirms before anything is written.



Notes moved off the classroom page; the main layout is untouched.

How to check this drawing: select any box in Visio and press Ctrl+I to open the Shape Data pane - it names the source file, endpoint count or table count behind that box; the drawing itself shows no line numbers.

Data source: compiled from the actual code on the CityNexus development branch as of 2026-10-23; the forensic version (file & line references) is Visio/01_CityNexus_System_Architecture.vsdx.
